

HARRIS ORGANIC WINE & SPIRITS

Duncan Harris, Proprietor of Harris Organic Wine and Spirits, accepts the Sustainability Award.

FOR IMMEDIATE RELEASE

**HARRIS ORGANIC WINE & SPIRITS
WINS
PRESTIGIOUS PAN PACIFIC PERTH
SUSTAINABILITY AWARD**

Pioneering Swan Valley Distillery and Winery Honoured for Decades of Certified Organic and Dry Land Farming

BASKERVILLE, WA — 26/10/2025 — Harris Organic Wine and Spirits, Perth's only certified organic winery and distillery, was announced the winner of the **Pan Pacific Perth Sustainability Award** at the 7NEWS Western Australia Community Achievement Awards Gala Presentation Dinner held in Perth on Saturday evening, 25/10/2025. The award recognises the company's 27-year commitment to dryland viticulture, closed-loop waste minimisation, and pioneering certified organic spirits production in the region.

The Pan Pacific Perth Sustainability Award acknowledges businesses that demonstrate an outstanding response to environmental and social challenges through innovation and sustainable practices. Harris Organic Wine and Spirits was specifically lauded for its comprehensive approach, which included utilising solar and wood-fired energy for small-batch distillation and successfully maintaining a vineyard in the Swan Valley without irrigation.

Duncan Harris, Proprietor of Harris Organic Wine and Spirits, accepted the award and commented on the significance of the recognition.

“This award validates our long-held belief that small-scale, environmentally responsible farming is not just possible here in Perth, but is the future of our industry,” said Mr Harris. “Twenty-seven years ago, this vision began, and it is thanks to the years of effort and hard work from my team, and the shared spirit of my peers that we are recognised today. We are proud that our commitment to a closed-loop system—minimising waste and reducing environmental impact—is setting a benchmark for resilience in viticulture.”

Harris Organic Wine and Spirits operates on the core principle of biological welfare over warfare, producing certified organic wines, brandy, and Australia's first certified organic vodka since 2007. The company is recognised as the oldest certified organic block of land in the Perth metropolitan region.

About Harris Organic Wine and Spirits: Established in 1998 by Duncan Harris, Harris Organic Wine and Spirits is the only certified organic winery and distillery in the Swan Valley, Western Australia. Driven by a philosophy of pure, low-intervention, and ethically produced beverages, the company specialises in dryland viticulture (non-irrigated) to ensure resilient and environmentally sound production. The business remains committed to organic principles, crafting high-quality wines and spirits that promote consumer health and ecological sustainability.
